1. This replies to your letter of January 22, 1968. We appreciated learning of your unusual experience of April 4, 1967, and will file your letter for information purposes. At this late date it would be impossible to undertake a detailed investigation. It is important that a witness report his observation as soon as possible, thus enabling Air Force analysts to perform a comprehensive investigation.

2. Thank you for reporting your observation to the Air Force.

and higher and then started to glide slowly coming in our direction. This time maybe it was about 700 feet up in the sky. The thing passed over us, but slowly enough so I could see the shape and just how many lights it had on it. It was a triangular shaped thing, and had three lights at the bottom of it. One was purple, another was white, and another was green.

My brother and I followed it. This time the color changed from orange to red. We came to our house. Again the color changed from red to white, and it darted away.

Now don't tell me I saw a plane or some other explanation. This was a U.F.O.. Even though I'm 12 yrs. old, I know a U.F.O. when I see one.

Sincerely,

(P.S. I am sending you a drawing of ~~me~~ my own to show you which way the object went.)

Dear Sir:

I know you get thousands of letters each year concerning U.F.O.s (Unidentified Flying Objects). But please, please take heed to this one.

Here is my story:

It was the night of April the 4th, 1967. My brother and I were going up to the delicatessen, exactly one block down from our house. I looked up into the sky and saw a red light, I thought it was just an airplane's light.

After coming out of the store we decided that we'd take the longer route home just for fun. Again I looked up, glancing around until I saw a bright (when I mean bright, I mean bright!) orange object. It was hovering about 500 or 600 feet above a house. I called to my brother and pointed upward to where the object was.

Suddenly the orange object rose higher
